Product Designer who ships. I design AI-powered tools used daily by 100+ creative professionals — and I build the React prototypes myself. 15 years in product, deep in design systems, AI workflows, and complex production tooling.

EXPERIENCE

Senior Product Designer — Sett

2025 — Present

AI tools for a 100-person playable-ad production team

- Cut character-animation asset time from **4 hours to 15 minutes** by designing an AI-driven animation pipeline now used daily team-wide
- Shipped 5 After Effects extensions with AI built directly into the motion team's workflow — eliminated context-switching
- Built and own the design system across 15+ internal AI interfaces, accelerating engineering handoff

Design Lead, Digital Health — Rabin Medical Center

2023 — 2025

Clinical software used across 4 hospital departments

- Designed dashboards and patient-facing flows now in daily use by clinical staff across **4 departments**
- Led UX research with physicians and nurses; translated clinical needs into a shipped AI patient-engagement system
- Established hospital-wide guidelines for generative AI in clinical tools — adopted org-wide

Product Designer — PlayBatch

2022 — 2023

Sole designer on an 8-person product team

- Led UX/UI for AI-powered creative tools; replaced manual workflows with designed automation interfaces

Product Designer — Bites

2020 — 2022

B2B SaaS for employee engagement, 10,000+ enterprise users

- Built a comprehensive design system that reduced developer handoff friction by **~40%**
- Shipped end-to-end features from research through release across multiple enterprise clients

Creative Director — justAd → Market Group

2013 — 2020

- Led a 12-person team across mobile ad campaigns for Fortune 500 clients
- Built modular ad template system that cut production time **60%**
